“Santkrupa Group” - established in the year 1986 with a vision and mission of making a mark in the ROLLING SHUTTER industry. Pioneered by the visionary Shri Kantibhai Pragjibhai Gohil, SANTKRUPA aims at the best of industrial standards and constantly adding new products in their kitty.

SANTKRUPA, keeping with its organizational values of Customer Orientation & Continued Value Addition, has ventured into ROOFING SHEET MANUFACTURING, STRUCTURELESS ROOFING SYSTEMS & ROOF FORMING MACHINES as well.

Sant Roofing Systems provides roofing solutions for Commercial Roofing, Godowns, garages, agriculture and industrial groups like warehouses, large sheds for agri commodities, swimming pool, banquet halls and animal shelter etc.

Sant Roofing Systems started with a vision to provide world class products manufactured in a state-of-the-art production unit. Sant Roofing Systems Aims at providing a QUALITY product with a very competitive price range. These products will be designed to meet-up sector specific demands and will ensure a fine product passed through A STRICT QUALITY check, on time delivery and satisfactory on-site installation.

Our state-of-the-art roofing structures are designed for durability, quality and safety for generations. Such structures provide the following advantages:

- Free movement & effective handling of goods
- Higher flexibility in space utilization
- Maximum protection of goods against water seepage
- Protection from Wind & rain
- Nut bolt free and hence rust free construction
- Faster project turnaround
- More cubic meter space
- No spoilage of goods due to bird-nuisance

**STRUCTURELESS**  
 Roofing System & Solutions

Structureless Roofing system and Solutions, Inc offers a complete metal roofing services backed by our extensive experience. We give metal roofing to provide the best metal roof for your project. Because of our experience, we eliminate the pit falls of incompatible products or deficient design. We provide several complete turn-key services for our roofing systems and solutions.

With so many different profiles from which to choose and with our expansive color selection, you're sure to find the metal panels needed for your building project.

## About Us

Structureless a trusted name, in metal roofing industry, now offers K-span roofing popularly known as Truss less roofing or self supported roofing system. Known for its customer focus and innovative products, backed by years of industry knowledge, Structureless has created a strong network throughout India supported with qualified Technical Team.

## Technology

On site Production and installation of self supported curved roofing without any structure, enables faster and leak proof roofing systems, thus ensuring utmost flexibility in work and design. Our Qualified Team can install up to 1500 sq.mt., area in just 12 Hours.

## Durability & Resistance to Corrosion

Galvalume and Galvanized alloy coating gives corrosion resistance and superior heat reflectivity. Galvalume Steel reflects a high percentage of heat and can withstand in any weather conditions without surface discoloration.

## Trouble Free Maintenance

Almost zero maintenance, as the technology involved in truss less roofing eliminates supporting trusses or purlins.

This will help in optimum space utilization and facilitates free movement of crates or Fork-lifts.

## Attractive Facades & Application

Unlimited choice of colour combination offers flexibility in designing the aesthetic beauty, which enhances the appearance and value of the building. Our rich experience in Metal Roofing Industry coupled with proven track record in executing projects on time has made STRUCTURELESS Pioneers in this field. We can also offer wide range of allied products like, Turbo Ventilators and Polycarbonate Sky Lights.

Truss Less Roofing Is Best Suited For Warehouses, Aircraft Hangers, Agro And Food Processing Units, Industrial Sheds, Textiles Units, Pharmaceutical Units, Agricultural Warehouses, Auditorium, Exhibition Halls And Kalyana Mandap, Etc.
